

Kalana Sehas Darshana

Software Engineer | UI/UX Designer | Web & Mobile Developer

Mobile: +94 75 593 9245 email: kalanasehasnew@gmail.com Linkdin: [/KalanaSehas](#) Portfolio: [/Sehas.dev](#)

PROFESSIONAL SUMMARY

Final-year BSc (Hons) Software Engineering undergraduate at the University of Plymouth with hands-on experience in software engineering, full-stack development, mobile application development, UI/UX design, and IoT solutions. Experienced in designing and developing user-centered digital products from concept to deployment using Flutter, React, Node.js, JavaScript, Java, C#, SQL, Firebase, and Figma. Combines strong technical problem-solving skills with a creative design background gained through freelance and studio graphic design experience.

TECHNICAL SKILLS

Programming: HTML, CSS, Java, Python, C#, JavaScript, SQL, Dart

Web: React.js, Node.js, Express.js, REST APIs, Responsive Design

Mobile: Flutter, Firebase, Android Studio

UI/UX: Figma, Adobe XD, Photoshop, Canva, Wireframing, Prototyping, User Research

Databases: MongoDB, MySQL, SQL Server, Firebase Realtime Database

Tools: Git, GitHub, Google Maps API

EDUCATION

University of Plymouth– BSc (Hons) Software Engineering

NSBM Green University (2023–Present)

ESOFT Metro Campus – Diploma in IT (Pearson)

ESOFT Metro Campus – Diploma in English (Pearson)

D. S. Senanayake College (2016–2022) – Prefect

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer - Fiverr (2020–2023)

- Delivered branding, social media, UI concepts, and marketing materials for local and international clients.
- Managed multiple projects while maintaining quality and client satisfaction.

Graphic Designer - Omek Roo Studio (2020–2022)

- Produced digital and print design assets and collaborated on branding projects.
- Maintained visual consistency and design standards across client work.

KEY PROJECTS

NSBM University Digital Platform – Multi-Role University Information System

- Developed a university platform with student, academic staff, and administrator dashboards.
- Implemented GPA tracking, attendance monitoring, timetables, announcements, and CRUD administration.

PlugMe – All-in-one Charging Station Finder & Smart Route Planner

- Built intelligent route planning, EV range prediction, and charging station discovery features.
- Technologies: Flutter, Firebase, Google Maps API, REST APIs.

RaiseCeylon – Transparent Crowdfunding Platform

- Developed verification workflows, donation management, and administration features using React, Node.js, and MongoDB.

Cloud+ – Real-Time Weather Intelligence Platform

- Built a Flutter weather application with live forecasts and location-based weather services.

Ocean IQ & Aqua Quest

- Designed research-driven and gamified educational mobile experiences using Figma, UX research, wireframing, and prototyping.

ADDITIONAL ACADEMIC PROJECTS

- Property Rental Platform (MERN Stack)
- CareLink Healthcare Application (Flutter, Firebase)
- Air Quality Monitoring Dashboard (Laravel, MySQL)
- Golden Reel Cinema Booking System (Java, JSP, MySQL)
- Project NEMO Smart Aquarium System (ESP32, Firebase)
- Cafe Management System (C#, .NET, SQL Server)

CORE STRENGTHS

Software Engineering, Full-Stack Development, Mobile Development, UI/UX Design, Problem Solving, Design Systems, Team Collaboration, Communication, Agile Development, Project Management
